CONSTRUCTION

Building beyond.

The background image shows an industrial facility with extensive scaffolding, pipes, and structural elements, all rendered in a blue-tinted, semi-transparent style. The text is overlaid on this background.

Cahill Construction, a division of the Cahill Group, offers electrical, instrumentation, mechanical, HVAC, piping, and structural construction services.

We offer a diverse range of solutions for industrial, institutional, and commercial markets. Our capabilities span the whole project life cycle, from conceptual design to commissioning.

Capabilities

Leveraging the resources of the Cahill Group, including cross-functional teams and fabrication facilities, we offer a single source solution for managing multi-trade industrial and commercial construction projects.

Cahill is experienced in all areas of construction including design build installations, mechanical completion and commissioning of industrial facilities, and managing turnarounds and shutdowns.

Integration of work scopes for different disciplines allows for safe management of complex, time-sensitive projects, resulting in maximum efficiency and productivity.

EXPERIENCED PEOPLE

Cahill Construction has a large and diverse network of experienced supervisory and site personnel, and the ability to quickly mobilize teams and equipment for any project. Our strategic partnerships provide a comprehensive service offering.

PROVEN SYSTEMS

Cahill Construction has proven processes and procedures that can be tailored to client requirements to ensure the most efficient approach to project execution.

Cahill Construction operates within a diverse framework of delivery methods and contract types. Our approach is to focus on quality, safety, schedule, cost, and client relationships.

Facilities

Cahill Construction has access to all Cahill Group-owned fabrication facilities. These facilities offer advanced equipment and procedures to support fabrication activities for construction projects.

Areas of Expertise

MECHANICAL

- Plumbing, heating, ventilation, air conditioning.
- Millwrighting.
- Equipment installation.
- Heavy equipment and rigging.

PIPING

- Pipe fabrication and welding for spooled or skid installations.
- Manufacture and installation of piping arrangements for modules.
- Pipe racks.

STRUCTURAL

- Steel erection of light, medium, heavy and modularized installations.

ELECTRICAL AND INSTRUMENTATION

- Design, installation, and maintenance of electrical systems and components.
- Controls and automation.
- Low to high voltage cable installation.
- Industrial and street lighting.
- Aerial distribution.
- Data communications.
- Substations.
- Life safety.

Ancillary services supporting our construction projects include civil (equipment and building foundations), and architectural (prefabricated buildings, equipment enclosures).

Hydro Electric Unit

Experience

Cahill Construction has provided solutions for major onshore and offshore projects including Long Harbour, Voisey's Bay, Confederation Bridge, Hibernia, Terra Nova, and White Rose.

We have significant experience in developing and gaining approval for complex, project specific procedures, and working in harsh environments, including remote locations, to the highest standards and level of quality.

QHSE

- ISO 9001:2008 registered.
- Corporate *Safe Steps* program.
- Proven management systems.
- Established welding and fabrication procedures.
- Multi-province registration for pressure piping including medical gases.

Cahill Construction is a division of the Cahill Group, one of the largest multi-disciplinary construction companies in Canada. With operations from Eastern Newfoundland to Northern Alberta, Cahill is building the future of oil and gas, mining, hydro, and social infrastructure on some of the largest construction and fabrication project sites in the country. Through strategic partnerships with global industry leaders, progressive thinking, and a passionate, dedicated workforce, we safely deliver best in class solutions to the world.

Together, we're building beyond.
